THE CONFERENCE COMMITTEE ON APPROPRIATIONS
OFFERED THE FOLLOWING AMENDMENT TO HOUSE
BILL 1800 (MULTILITHED BILL):

Strike everything after the enacting clause and insert the following in lieu thereof:

Section 1. The moneys in the following items are appropriated from the named funds for the indicated fiscal years of the biennium to the state agency indicated, as the amounts to be used to pay the salaries and other expenditures of the named agencies, and are in lieu of all moneys appropriated for these purposes in the indicated sections of the Florida Statutes, except that if additional moneys are needed to meet the requirements of a continuing appropriation of a trust fund and additional moneys are available in the named trust fund, the budget commission, upon affirmative vote of five (5) members of said commission, is authorized to approve the expenditure of additional, available moneys in such trust fund in such amount(s) as may be necessary to meet such deficiency. The funds appropriated for the positions specifically indicated in an item are the only appropriation of moneys to be used to pay the total salary of each position in such items as provided in Article III, section 27 of the state constitution, and in section 282.051, Florida Statutes. Appropriations made in items 205 to 222, 259 to 282, and 289 to 326, to the board of commissioners of state institutions and in items 925 to 1062 to the board of regents may be transferred notwithstanding the provisions of section 282.061, Florida Statutes, to another agency or institution within the same division or between institutions of higher learning with the approval of the budget commission upon its determination that such transfers are necessary because of transfers of inmates or patients from one institution to another, because of shifts in the number of full-time equivalent students budgeted at each institution, in order to adequately provide the necessary services at each institution which the budget commission determines to be in the best interest of the state; provided, however, the total annual appropriation in this section to any such institution may not be increased or decreased by more than ten percent (10%) as a result of such transfers.

Appropriations made in items 248 and 287 to the board of commissioners of state institutions may be transferred, notwithstanding the provisions of section 282.061, Florida Statutes, respectively to the institutions in the division of mental health and division of mental retardation to be used for community programs upon recommendation of the division director and with the approval of the budget commission upon its determination that such transfers are in the best interest of the state; provided, however, the total amount which may be transferred pursuant to this provision shall not exceed twenty percent (20%) of the available funds in items 248 and 287.

Appropriations made in items 259 to 282 to the board of commissioners of state institutions may be transferred notwithstanding the provisions of section 282.061, Florida Statutes, to be used for community mental health programs authorized by the 1965 legislature upon recommendation of the division director and with the approval of the budget commission, upon

its determination that such transfers are in the best interest of the state; provided, however, the total amount which may be transferred pursuant to this provision shall not exceed ten percent (10%) of the total appropriations in items 259 to 282. Appropriations made in items 289 to 326 to the board of commissioners of state institutions may be transferred notwithstanding the provisions of section 282.061, Florida Statutes, to be used for community mental retardation programs authorized by the 1965 legislature, upon recommendation of the division director and with the approval of the budget commission, upon its determination that such transfers are in the best interest of the state; provided, however, the total amount which may be transferred pursuant to this provision shall not exceed ten percent (10%) of the total appropriations in items 289 to 326.

Appropriations made in items 404 to 406 to the board of conservation may be transferred notwithstanding the provisions of section 282.061, Florida Statutes, within themselves with the approval of not less than five (5) members of the budget commission, upon its determination that such transfers are necessary and in the best interest of the state.

Provided, however, out-of-state tuition may be paid in those instances in which authorized courses are not offered in the state university system.

Section 11. S., any amounts appropriated to those agencies may be transferred to the state department of public welfare to pay for treatment of psychotic or tubercular patients.

S., the budget commission may approve the necessary transfers of appropriations to accomplish the purposes of such reorganization.

Section 14. It is the intent of the Legislature that the salary of each non-elected agency head for the fiscal year 1968-69 shall be as recommended by the budget commission in its 1967 report to the legislature for the fiscal year 1967-68 and that the salary of such agency heads for the fiscal year 1967-68 shall be the present salary of such agency head plus one-half the difference of the present salary of such agency head and the proposed salary of such agency head as indicated herein for fiscal year 1968-69; provided, however, this provision shall not apply to the agency heads under the board of regents or in those instances where a specific salary may be otherwise fixed by law; and provided further, that notwithstanding the provisions of Section 476.18, Florida Statutes, the director of the Florida barber's sanitary commission may be paid an annual salary in excess of \$7,200, but not in excess of the current salary being paid to the said director.
